

Elementary School On-Site Visit requests:

Local schools often request an on-site visit from the Fire Department as part of an educational project. Crews from the local Fire Station are happy to bring a Fire Truck or Ambulance to the school. The Fire Marshal is also available to give presentations on certain life safety topics as well, to high school special need students or any other grade/class.

Before you schedule or publicize this educational project/event, please email or call the Fire Marshal who will be able to verify the Stations availability on the date and time requested. We would also like to know the anticipated number of students that are part of this project, so we can bring age appropriate fire prevention hands outs and/or junior firefighter hats.

Please keep in mind that should an emergency call take place, the Firefighters and vehicles may need to leave early or arrive later than anticipated.

Fire Marshal contact : (502) 875-8539 or gmuller@frankfort.ky.gov
