Eric E. Whisman

May 14, 2019

Please visit the project website [www.frankfort.ky.gov/TIGER](http://www.frankfort.ky.gov/TIGER)

The purpose of this note, and the many that will follow, is to provide you with recent and immediate future activity concerning the Second Street TIGER grant project.

- The City has completed the parking utilization study for the Second Street corridor. The results will be available at the May 30<sup>th</sup> public event at the Paul Sawyer Public Library.
- The Strand Associates team recently met with the Kentucky Transportation Cabinet and the City to discuss the preliminary evaluation submittal. This submittal includes several design alternatives that, prior to proceeding to final design, must be approved by the Kentucky Transportation Cabinet. These design alternatives will be presented at the May 30<sup>th</sup> public event at the Paul Sawyer Public Library.
- We want to share more information about how the May 30<sup>th</sup> event will be formatted. As previously mentioned, the public event has been scheduled for Thursday, May 30<sup>th</sup> from 5:30 to 7:30 p.m. in the Community Room at the Paul Sawyer Public Library. The general format will be an open house. There will be a sign-in table where participants may pick-up a questionnaire, handouts, and stickers. The questionnaire may be used to indicate a participant's preference for different design alternatives. There will be opportunities to use the stickers to indicate a participant's preference concerning general styles of possible project amenities such as street lights, benches, planters, and others. There will be four review stations where images of general amenity styles, aerial photos and design alternatives may be viewed and discussed. As with any project of this scope and complexity, there are sometimes competing factors affecting the design and implementation. It is our goal to find a reasonable balance between these competing factors.
- The Strand Associates team continues to gather environmental data and is drafting baseline reports.
- We continue to develop a project stakeholder list with contact information so that we may keep interested parties informed of project status. We are also developing a separate property owner list with contact information.

For those of you who did not receive the previous update note, attached for your information is a project map and the overall project schedule. Please understand that the attached project schedule is the schedule included in the USDOT/KYTC and KYTC/City TIGER grant agreements. As with many complex and lengthy projects such as the Second Street TIGER grant project, there are numerous factors that may alter the schedule as the project progresses. It is the City's expressed intent to follow the attached schedule as closely as possible.

Please feel free to share this note with others. If you would like to be removed from this distribution list, please let me know. Thank you.
