

Smoke Detector Education and installation requests:

The Fire Department has partnered with Red Cross who generously provides our department with a limited number of battery operated smoke detectors. The program is intended primarily for homes that do not have smoke detectors, that do not have the proper amount of detectors; or for those who might not be able to afford smoke detectors. There are no fees related to this program.

To see if you qualify, please simply contact the Fire Marshal by phone or email:

Fire Marshal contact : (502) 875-8539 or gmuller@frankfort.ky.gov

If you have questions about your current smoke detectors, are not able or know how to test, replace, or install your own smoke detectors, our department is more than willing to assist you. No fee is related to this service, simply contact the Fire Marshal at the above number or email.

Our Department has also submitted for a federal grant to assist with providing and installing special smoke detectors that are specifically for our citizens that are either deaf or hard of hearing. We hope find out if we are awarded this grant in the Fall of 2018. In the meantime, if you or your know someone that is deaf or hard of hearing and would like to be considered for this special smoke alarm/detection device – please contact the Fire Marshal.
